UNIFORM MORTGAGE

\title{
Uniform Closing Dataset (UCD) Specification
}

Issued by Fannie Mae and Freddie Mac Appendix F: UCD Sample Use Case Purchase/Fixed Rate

Document Version 1.1
February 24, 2015

> In support of the
> Integrated Mortgage Closing Disclosure under the Real Estate Settlement Procedures Act (Regulation X) and the Truth In Lending Act (Regulation Z) Issued by the CONSUMER FINANCIAL PROTECTION BUREAU
> Published in the Federal Register on December 31, 2013

This document relates to the Uniform Mortgage Data Program \({ }^{\circledR}\), an effort undertaken jointly by Freddie Mac and Fannie Mae at the direction of their regulator, the Federal Housing Finance Agency.

\section*{Revision History}
\begin{tabular}{|l|l|l|}
\hline Date & Version \# & Descriptions \\
\hline July 15, 2014 & 1.0 & Initial version \\
\hline February 24, 2015 & 1.1 & \begin{tabular}{l} 
• Updated information in 'Assumptions for the XML file \\
creation' \\
\(\bullet\) Corrected value for 12.0.1 \\
\(\bullet\) Added row numbering for 15.6 and 15.6.1 \\
- Removed Loan Acceptance statement in 22.1
\end{tabular} \\
\hline
\end{tabular}

\section*{I. Introduction}

In conjunction with the UCD, the GSEs have published four sample use cases called, Appendix F: UCD Sample Use Cases, to serve as examples of how the Closing Disclosure may be populated for specific business transactions. Additionally, each use case in Appendix \(F\) has a corresponding sample XML file in Appendix G: UCD Sample XML Files.

Each field on the sample use cases in Appendix F contains a 'red' number that can be used to identify the corresponding MISMO data point(s) and definitions provided in Appendix B: Closing Disclosure Mapping to the MISMO v3.3 Reference Model.

Because the Closing Disclosure is a dynamic form with varying required data points based on the loan or transaction characteristics, each use case illustrates a unique business transaction (e.g., Purchase/Fixed, Purchase/ARM, Non-Seller/Fixed, Non-Seller/ARM). In certain cases where values are dependent on lender calculations such as in the Loan Calculations section on p.5, a plug value (e.g. \$1 or 1\%) has been reflected. The use cases in Appendix F were created solely by the GSEs to assist in understanding the UCD and are not samples promulgated by the CFPB.

\section*{II. Using this Reference}

\section*{A. Text Color Legend}
1. Black: Text that appears on Exhibit \(\mathrm{H}-25(\mathrm{~A})\) is shown in black font.
2. Red: Form reference numbers.
3. Blue: Used if the inclusion of a particular data section, block, or detail depends on the type of loan product (e.g., in the Contact information such as; "Mortgage Broker" and "Real Estate Broker (listing)" and "Real Estate Broker (selling)"
4. Green: Clarifies the type of data and value that must be provided (e.g., " \(\$\) " and "\%") or when data must be provided (e.g., "or" and "(Complete if yes)".

All non-black text should be used for reference only and is not to be considered part of the regulatory requirements.

\section*{B. Form Reference Number Format}

The reference numbers increase chronologically by logical form section, generally moving from left to right and then down the form. The numbers have the following format, where " \(n\) " is a sequential number:
1. n. 0 -Identifies a form section. These are the highest level numbers on the form. For transactions with sellers, there can be up to 24 form sections, depending on the loan product (1.0-24.0).
2. n. \(m\) - Identifies a block of data \((m)\) within a form section ( \(n\) ). For example, in Section 1.0 , there are 7 blocks of data (1.1-1.7).
3. n.m.o - Identifies additional details (o) about a block of data ( \(m\) ) within a form section ( \(n\) ). For example, in Section 4.1, up to three additional sets of details can be provided about 4.1-Loan Amount: 4.1.1-the loan amount in dollars, 4.1.2an indicator of whether the loan amount can increase, and 4.1.3-if the loan amount can increase details about how that could occur.

\section*{C. Identical Values Required in More than one Form Location}
1. In several instances, an identical value appears in more than one location on the Closing Disclosure. While identical values generally are mapped using the same data points and xPaths (and only have one instance in the XML file), there are instances where a value may be mapped using different xPaths (e.g. using document-specific containers vs. containers such as FEE, LOAN_DETAIL, etc.) depending on its location on the form. The endnotes at the back of this Use Case highlight identical values that have multiple mappings.
2. In the case of the Summaries of Transactions table (Sections 11.0-16.0), there are several values from the "BORROWER's TRANSACTION" side that by regulation should be equal to corresponding values on the "SELLER's TRANSACTION" side. These values are mapped separately and sent twice in the XML file because they are structured within the XML file to be associated with each side of table. These are noted as cross references in the Cross Reference Table.

\section*{D. Calculated Values}

Throughout the form, the reported values for two or more data points may be operated on mathematically to yield the value for yet another data point - for example, subtotals are combined to equal totals. Although these values are functionally equivalent, they are usually sent as unique data points in the transmitted XML file.
E. Indicating Zeroes or Blanks

As a general rule, when a given entry is not applicable for the Closing Disclosure, the amount field is to be left blank. Only those cases where a "zero" should be entered are noted on this form.

\section*{F. Assumptions for the XML file creation}
- The following GSE Required data points are needed for the XML file creation but the values are not calculated using information in this Use Case, rather they are plug numbers for illustrative purposes only.
- AbilityToRepayMethodType = General
- AveragePrimeOfferRatePercent \(=3.5 \%\)
- LoanPriceQuoteInterestRatePercent \(=1 \%\)
- RegulationZExcludedBonaFideDiscountPointsPercent \(=.25 \%\)
- RegulationZExcludedBonaFideDiscountPointsIndicator = true
- RegulationZTotalAffiliateFeesAmount = \$150
- RegulationZTotalLoanAmount \(=\$ 140,000\)
- RegulationZTotalPointsAndFeesAmount \(=\$ 4,000\)
- Additional information for the XML file includes:
- CurrentRateSetDate \(=4 / 1 / 2013\)
- LicenselssuingAuthorityStateCode= ST
- LicenseAuthorityLevelType = PublicState
- LicenselssuingAuthorityName = StateAuthority
- LicenselssueDate= \(1 / 1 / 2000\)
- LoanIdentifierType = MERS_MIN
- LoanIdentifier (for MERS_MIN) = 112233445566778899
- One fee has been designated as an 'affiliate' provider fee. This includes:
- Pest Inspection Fee
- The sales contract designates a value for Real Property of \(\$ 180,000\), and a value for Personal Property of \(\$ 5,000\)
- The Escrow Aggregate Adjustment calculation assumes a \(\$ 200\) cushion
- No personal property is being pledged as collateral for the loan
- The Loan Calculations values on p. 5 of this Use Case (i.e. Total of Payments, Finance Charge, Amount Financed, Annual Percentage Rate (APR) and Total Interest Percentage (TIP)) are not calculated using information in this Use Case and are plug numbers for illustrative purposes only.

\section*{III. Disclaimer}

The attached sample Use Case captures the UCD workgroup's collective efforts to develop a complete and accurate representation of the data required by the CFPB's Integrate Mortgage Disclosures regulation for this sample loan transaction. The amounts reflected in this sample Use Case are for illustrative purposes only and are not meant to indicate a standard or customary charge for any particular cost, insurance or fee in every jurisdiction. The loan characteristics shown are for demonstration of the resulting effect on the required sections, calculations and disclosures and are not meant to imply that such loans are eligible for delivery to Fannie Mae or Freddie Mac. While every caution has been taken to illustrate all calculations accurately given a detailed review of the Integrated Disclosures Regulation, we do not provide any warranty or make any guarantee concerning the utility, completeness or accuracy of the document.

This form is a statement of final loan terms and closing costs. Compare this document with your Loan Estimate.

\section*{Loan Disclosures}

\subsection*{17.1 Assumption}

If you sell or transfer this property to another person, your lender
\(\square\) will allow, under certain conditions, this person to assume this
loan on the original terms.
\(\square\) will not allow assumption of this loan on the original terms.

\subsection*{17.2 Demand Feature}

Your loan
\(\square\) has a demand feature, which permits your lender to require early repayment of the loan. You should review your note for details.
\(\nabla\) does not have a demand feature.

\subsection*{17.3 Late Payment}

If your payment is more than 10 days late, your lender will charge a late fee of \(5 \%\) of the monthly principal and interest payment.

\subsection*{17.4 Negative Amortization (Increase in Loan Amount)}

\section*{Under your loan terms, you}
\(\square\) are scheduled to make monthly payments that do not pay all of the interest due that month. As a result, your loan amount will increase (negatively amortize), and your loan amount will likely become larger than your original loan amount. Increases in your loan amount lower the equity you have in this property.
\(\square\) may have monthly payments that do not pay all of the interest due that month. If you do, your loan amount will increase (negatively amortize), and, as a result, your loan amount may become larger than your original loan amount. Increases in your loan amount lower the equity you have in this property.
\(\nabla\) do not have a negative amortization feature.

\subsection*{17.5 Partial Payments}

\section*{Your lender}

V may accept payments that are less than the full amount due (partial payments) and apply them to your loan.
\(\square\) may hold them in a separate account until you pay the rest of the payment, and then apply the full payment to your loan.
\(\square\) does not accept any partial payments.
If this loan is sold, your new lender may have a different policy.

\subsection*{17.6 Security Interest}

You are granting a security interest in
456 Somewhere Ave, Anytown, ST 12345

You may lose this property if you do not make your payments or Satisfy other obligations for this loan.

\subsection*{18.0 Escrow Account}

\section*{For now, your loan}
18.1 w will have an escrow account (also called an "impound" or "trust" account) to pay the property costs listed below. Without an escrow account, you would pay them directly possibly in one or two large payments a year. Your lender may be liable for penalties and interest for failing to make a payment.
\begin{tabular}{|c|c|c|}

one or two large payments a year.
\end{tabular} \\
\hline Escrow Waiver Fee & 18.7 & \\
\hline
\end{tabular}

\section*{In the future,}

Your property costs may change and, as a result, your escrow payment may change. You may be able to cancel your escrow account, but if you do, you must pay your property costs directly. If you fail to pay your property taxes, your state or local government may (1) impose fines and penalties or (2) place a tax lien on this property. If you fail to pay any of your property costs, your lender may (1) add the amounts to your loan balance, (2) add an escrow account to your loan, or (3) require you to pay for property insurance that the lender buys on your behalf, which likely would cost more and provide fewer benefits than what you could buy on your own.

Loan Calculations
21.0

Total of Payments. Total you will have paid after you make all payments of principal, interest, mortgage insurance, and
loan costs, as scheduled.
Finance Charge. The dollar amount the loan will cost you.
Amount Financed. The loan amount available after paying
\begin{tabular}{l|ll} 
your upfront finance charge. & 21.3 & \(\$ 1\)
\end{tabular}

Annual Percentage Rate (APR). Your costs over the loan term expressed as a rate. This is not your interest rate.

Total Interest Percentage (TIP). The total amount of interest that you will pay over the loan term as a percentage of you loan amount.
21.5
\(1 \%\)

Amounts in the table above have intentionally been represented as a value of 1 because calculation assumptions are lender and product specific

\section*{Other Disclosures}

\section*{Appraisal}

If the property was appraised for your loan, your lender is required to give you a copy at no additional cost at least 3 days before closing.
If you have not yet received it, please contact your lender at the information listed below.

\section*{Contract Details}

See your note and security instrument for information about
- what happens if you fail to make your payments,
- what is a default on the loan,
- situations in which your lender can require early repayment of the loan, and
- the rules for making payments before they are due.

\subsection*{22.1 Liability after Foreclosure}

If your lender forecloses on this property and the foreclosure does not cover the amount of unpaid balance on this loan,
\(\square\) state law may protect you from liability for the unpaid balance. If you refinance or take on any additional debt on this property, you may lose this protection and have to pay any debt remaining even after foreclosure. You may want to consult a lawyer for more information.
\(\square\) state law does not protect you from liability for the unpaid balance.

\section*{Loan Acceptance}

You do not have to accept this loan because you have received this form or signed a loan application.

\section*{Refinance}

Refinancing the loan will depend on your future financial situation, the property value, and market conditions. You may not be able to refinance this loan.

\section*{Tax Deductions}

If you borrow more than this property is worth, the interest on the loan amount above this property's fair market value is not deductible from your federal income taxes. You should consult a tax advisor for more information.
